CHEWABLE DENTAL MINTS

Brushless, Waterless, On-the-Go Oral Care

Chew ✨ Swish ✨ Clean ✨ Fresh

Meet DentiMints™

Oral Hygiene for Festivals, Concerts, and Crowded Events

Chewable dental mint designed for use without water, rinsing, or brushing

Clean Label. Sugar-free. No fluoride. No SLS. No dyes.

Takes just 30 seconds - chew, swish, and feel clean

Built for high-traffic, high-temperature environments

Shelf-stable, portable, and ready for retail or giveaways

The Challenge

Oral Care Gets Skipped at Festivals - But It Shouldn't

Long days in the sun without access to water or proper restrooms

Not everyone packs a toothbrush - and brushing in public isn't realistic

Food assistance alone isn't enough when oral health is left unaddressed

Food, alcohol, and heat lead to bad breath and dry mouth

Gum and breath mints mask odor - but don't clean or protect the mouth

Event Environments: The Hygiene Challenge

Hot, Crowded, Dusty, and No Tools in Sight

DentiMints™ gives people a way to maintain oral care in real-time - anytime, anywhere

Water is for hydration - not brushing or rinsing

Access to personal hygiene supplies is nearly nonexistent

Brushing is awkward, unrealistic, and not festival-friendly

Most attendees will go 12+ hours without oral care

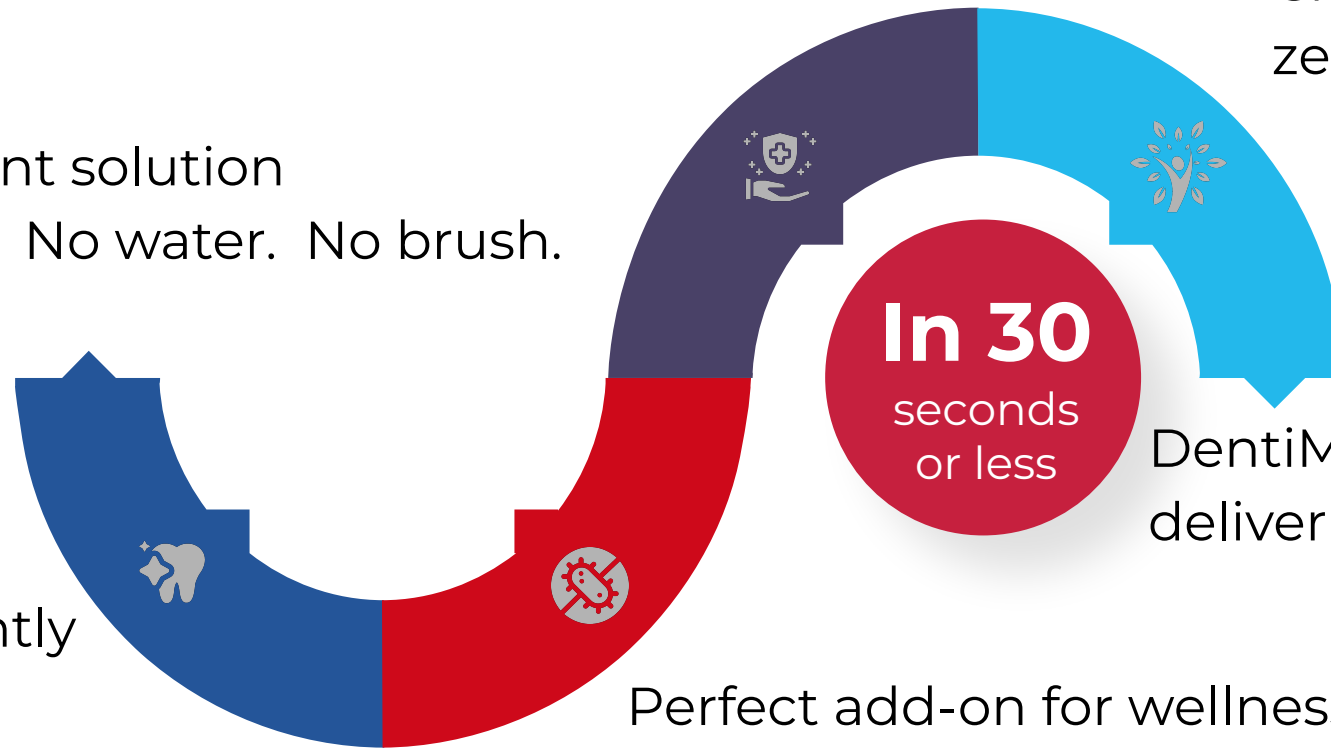

The Solution

Real Oral Care, Anytime, Anywhere – In Under 30 Seconds

A fresh, confident solution people will use. No water. No brush. No mess.

Antibacterial, pH-balancing, & gently polishing - it fights buildup and bacteria fast

Chew, swish, and go - zero tools, zero mess

DentiMints™ dental mints deliver complete oral hygiene

Perfect add-on for wellness kits, vendor booths, and impulse zones

How It Works

Chew. Swish. Clean. Fresh.

No toothbrush? No sink? No problem!

Chew the tablet to activate the oral care ingredients

Swish as it dissolves – no water required

Cleans teeth, balances pH, and supports a healthy mouth

No rinsing, brushing, or sink needed - just results
