CHEWABLE DENTAL MINTS

Brushless, Waterless, On-the-Go Oral Care

Chew ✦ Swish ✦ Clean ✦ Fresh

Meet DentiMints™

Practical, Dignified Oral Hygiene For People Without Housing

Chewable dental mint
designed for use without
water, rinsing, or brushing

Sugar-free. No fluoride. No SLS.
No aspartame. No dyes

Works anywhere: in shelters,
on the streets, in transit, or in
camps

Oral hygiene matters - and
now there's a way to support it,
anywhere

Available in formats suited to meal kits, hygiene bags,
community support centers, and mass outreach

The Challenge

Oral Disease Is Rampant & Under-Treated In Homeless Populations

Individuals without permanent housing are up to 12x more likely to suffer serious dental problems

Lack of access to water, tools, or privacy makes daily hygiene nearly impossible

Food assistance alone isn't enough when oral health is left unaddressed

A portable, practical, and scalable solution is urgently needed today

Oral disease causes pain, infection, and worsens health; making it hard to eat, or even sleep

The Oral Hygiene Gap In Outreach Distribution

Most Solutions Aren't Built For People Without Easy Access to Water, Tools or Sinks

DentiMints™ gives people a way to maintain oral care in real-time - anytime, anywhere

Outreach programs provide meals, clothing, & hygiene bags - but oral care is often left out

When included, products often require water, privacy, or tools people simply don't have

Mints may freshen breath but do not clean or protect the mouth

There's no standard, scalable way to deliver full-mouth oral hygiene in outreach settings

The Solution

Real Oral Care, Anytime, Anywhere – In Under 30 Seconds

A fresh, confident solution
people will actually use. No water.
No brush. No mess.

Antibacterial,
pH-balancing, & gently
polishing - it fights
buildup and bacteria fast

Reduces harmful
bacteria, freshens breath
and removes debris

DentiMints™ dental mints
deliver complete oral hygiene

Ideal for shelters, mobile units, food
lines, and outreach kits

How It Works

Chew. Swish. Clean. Fresh.

No toothbrush? No sink? No problem!

Chew the tablet to activate the oral care ingredients

Swish as it dissolves – no brushing, no water, no rinsing

It lifts food debris, reduces bacteria, balances pH, and refreshes

No water. No tools. It cleans the mouth anytime, anywhere

Oral Care For Real Life

Reliable Hygiene Support Throughout The Day

Designed for the Streets, Shelters,
and Outreach Programs

DentiMints provides a fast,
brushless hygiene solution that
restores dignity, supports health,
and fits seamlessly into the
rhythms of real life on the streets -
no tools, water, or instructions
required.

How DentiMints™ Supports Outreach Programs

A Scalable Tool For Hygiene, Nutrition, and Dignity

Restores confidence during interviews, housing access, and public interaction

Helps individuals eat more comfortably and avoid preventable oral infections

✕ Supports basic hygiene needs across transitional and emergency settings

Portable, shelf-stable, and usable with no supervision or explanation

Designed to work in food banks, shelters, and mobile aid programs

Trusted, Effective, Proven Ingredients

Real Oral Care, Built From Clinically Supported Components

ExoCyan Cran™

- Patented cranberry extract with antioxidant properties that help reduce harmful bacteria and support gum health

Xylitol

- A natural sweetener that helps prevent plaque buildup & supports a balanced oral microbiome

Calcium Lactate

- A bioavailable mineral that strengthens enamel and aids in remineralization

Sodium Bicarbonate

- Neutralizes acid, balances oral pH, and helps remove debris

Silica

- A mild abrasive that helps clean and polish teeth when traditional brushing isn't possible

Scientifically Supported Oral Care

Ingredients That Support Oral Health - Even When Traditional Hygiene Isn't Possible

Supports real hygiene and comfort when conditions make traditional routines impossible

Reduces bacteria that contribute to plaque, odor, and irritation

Helps regulate mouth pH and prevent acid buildup after energy drinks or meals

Promotes healthier gums and freshens the entire mouth

Delivers a complete oral care experience without the need for brushing or rinsing

Gentle, effective, and appropriate for use in any kind of environment

DentiMints™ Outreach-Ready Packaging Options

A Hygiene Solution That's Portable, Practical, and Field-Tested

Why Nothing Else Meets The Need

Mints

- Mask odor
- No hygiene benefit

Gum

- messy & ineffective
- Doesn't clean or support enamel

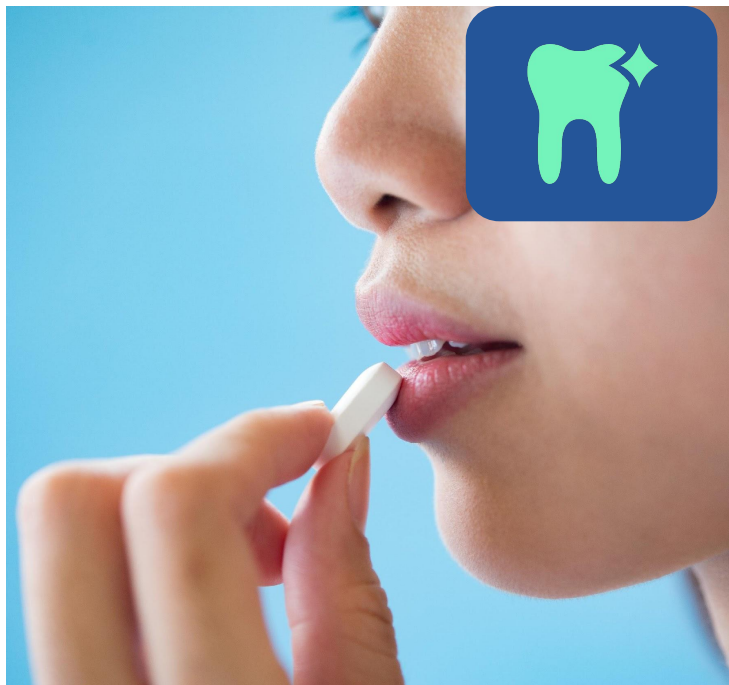

Toothpaste

- Requires water, time, and tools
- Impractical on the streets

DentiMints™ cleans, protects, & freshens in any environment - no tools required

What Makes Dentimints™ Different

Built For The Streets - Not Just The Store Shelf

**DentiMints™ delivers
full oral hygiene and
is easy to use**

- ✦ Cleans and protects the mouth - not just freshens
- ✦ Works without brushing, rinsing, or water
- ✦ Supports hygiene in real-world conditions - not just in a bathroom
- ✦ Nothing else like it on the market today

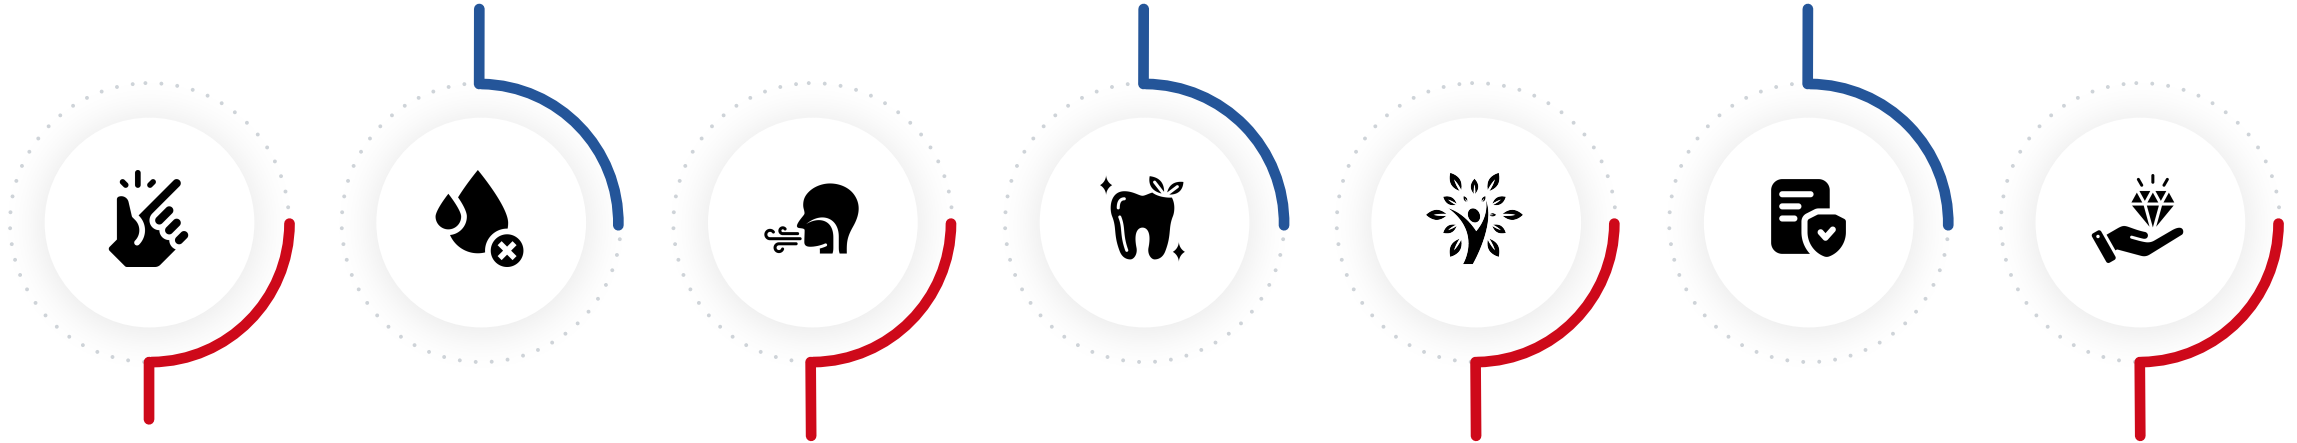

Why It Works For Everyone

A Practical, Effective Solution For Vulnerable Populations

Improves quality of life in shelters, on the streets, or in relief centers

Easy to carry, easy to use - no water or setup

Can be added to meal kits, hygiene bags, or handed out individually

Helps reduce oral pain, protect health, and restore confidence

Supports holistic well-being and dignity for people in crisis

Valuable to outreach teams and community leaders with wellness initiatives
