

# DentiMints<sup>®</sup>

## CHEWABLE DENTAL MINTS

### Brushless, Waterless, On-the-Go Oral Care

**Chew ✦ Swish ✦ Clean ✦ Fresh**

# Meet DentiMints™

## Oral Hygiene That Meets Patients Where They Are

Chewable dental mint providing oral care without brushing, water, or tools

No fluoride, no SLS, no dyes, no aspartame - clean label and patient safe.

Supports the oral microbiome with clinically backed, non-irritating ingredients

Safe for limited mobility, post-surgery, or cognitively impaired patients

Designed for hospital rooms, post-op recovery, and rehab environments

# The Challenge

## Oral Care Gets Overlooked – Even in Healthcare Settings

91% of acute care patients experience oral health decline during hospitalization

Traditional brushing is skipped due to lack of water, tools, or mobility

Poor oral hygiene contributes to pneumonia, malnutrition, and longer recovery

Oral care is often deprioritized in care plans despite its critical role in patient outcomes

Gum or mints may freshen breath – but do not clean or protect the mouth

# Hospital Environments: The Hygiene Challenge

## Traditional Oral Care Doesn't Fit Modern Inpatient Settings

DentiMints™ offers a full-mouth cleaning in 30 seconds, with no tools or rinsing required.

Patients often can't stand, rinse, or brush due to injury or post-op status

Nurses and aides are overburdened – hygiene is rushed or skipped

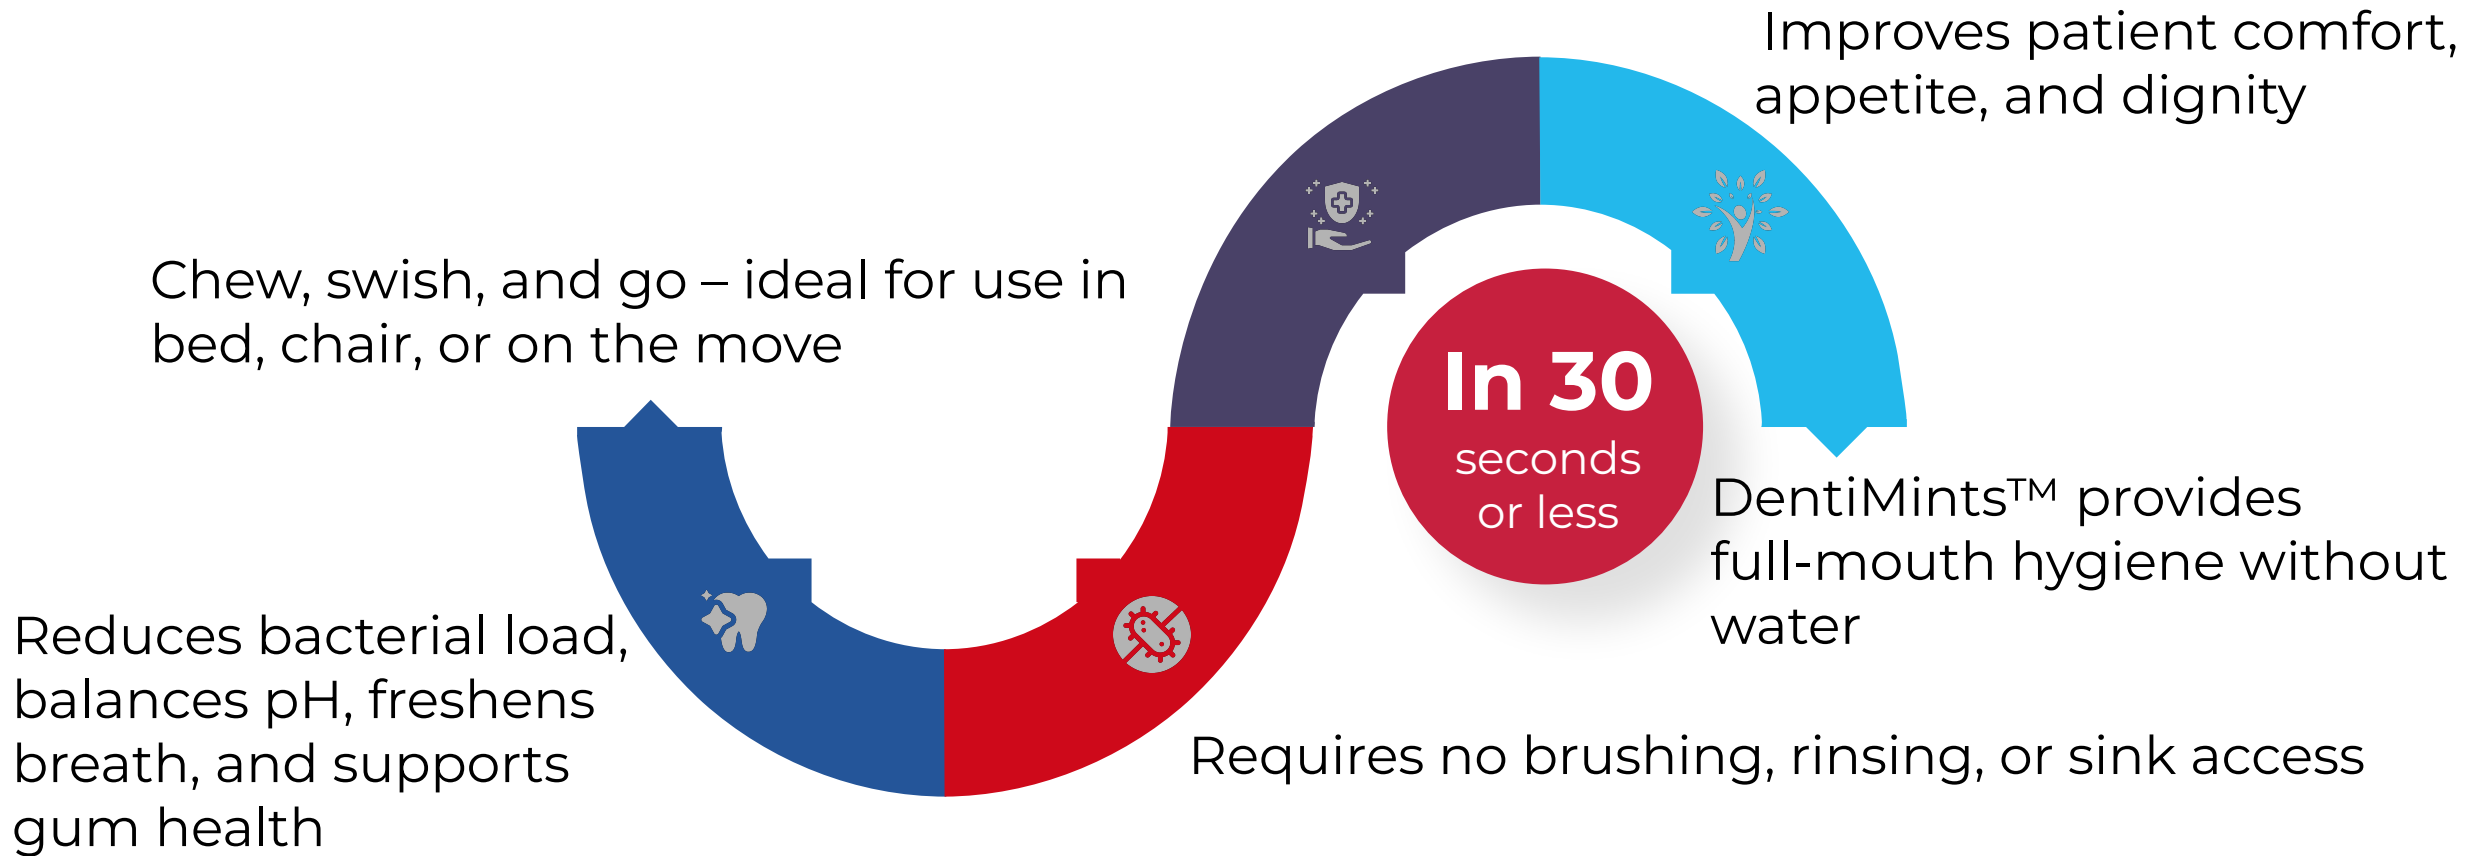

Rehab patients may lack dexterity or motivation for daily brushing

Toothbrush kits are used inconsistently or ineffectively

# The Solution

## Real Oral Care - Anytime, Anywhere

# How It Works

Chew. Swish. Clean. Fresh.

**No toothbrush? No sink? No problem!**

Chew the tablet to activate ingredients

Swish as it dissolves – no rinse or sink needed

Cleans teeth and gums while supporting enamel and pH balance

Refreshes the entire mouth, quickly and easily.

# Oral Care For Real Life

## Hygiene That Fits the Hospital Routine

Designed for seamless use at the bedside, after surgery, or during therapy, DentiMints™ supports patient dignity and self-care without disrupting nursing routines - offering a fast, effective oral hygiene solution when brushing isn't feasible.

# How DentiMints™ Supports Patient Care

## A Waterless, Brushless Solution Elevating Patient Outcomes

Allows oral hygiene for patients with physical or cognitive limitations

Helps prevent aspiration pneumonia and oral-related infections

\*Supports hydration, appetite, and compliance with therapy

Simple enough for independent use – no staff training needed

Uses proven functional ingredients with real oral care benefits

# Trusted, Effective, Proven Ingredients

## Clean-Label Formulation That Delivers

### ExoCyan Cran™

- Patented cranberry extract with antioxidant properties that help reduce harmful bacteria and support gum health

### Xylitol

- A natural sweetener that helps prevent plaque buildup & supports a balanced oral microbiome

### Calcium Lactate

- A bioavailable mineral that strengthens enamel and aids in remineralization

### Sodium Bicarbonate

- Neutralizes acid, balances oral pH, and helps remove debris

### Silica

- A mild abrasive that helps clean and polish teeth when traditional brushing isn't possible

# Scientifically Supported Oral Care

## Real Ingredients. Real Results. Real Science.

Uses ingredients studied for their role in supporting full-mouth hygiene

Helps reduce harmful bacteria and maintain a balanced oral environment

No SLS, fluoride, dyes, or aspartame – ideal for sensitive patients

Supports enamel, gums, and overall oral comfort

Shelf-stable and ready for use anywhere in the facility

Provides true hygiene without antiseptics, fluoride, or harsh foaming agents

# DentiMints™ in Action: Hospitals & Rehabilitation

## Simple to Implement Across Patient Care Settings

- ✦ Use in post-op, long-term care, stroke rehab, or ICU
- ✦ Add to hygiene kits, bedside carts, or oral care protocols
- ✦ Fits anywhere from the bedside to mobile carts or nurse stations
- ✦ Easy to explain and easy to use - no learning curve required
- ✦ Supports both inpatient and outpatient therapy programs

All orders that meet MOQ

# What Makes Dentimints™ Different

## A First-of-Its-Kind Oral Care Product for Clinical Use

**Not candy. Not gum.  
Not just a mint – this  
is REAL oral hygiene**

- ✦ Made for healthcare – compliant, portable, patient-safe
- ✦ Clinically relevant – not commercial fluff
- ✦ Created to solve a real problem in modern care settings
- ✦ No rinse, water, or brushing required

# DentiMints™ Isn't Just Another Mint

## Compare the Difference

### Mints

- Only Mask odor
- No hygiene benefit

### Gum

- Not safe for all patients
- Doesn't clean or protect

### Toothpaste

- Requires tools, time, and assistance
- Not practical

DentiMints™ delivers effective, brushless, waterless oral hygiene anytime, anywhere, using trusted ingredients designed for modern patient care

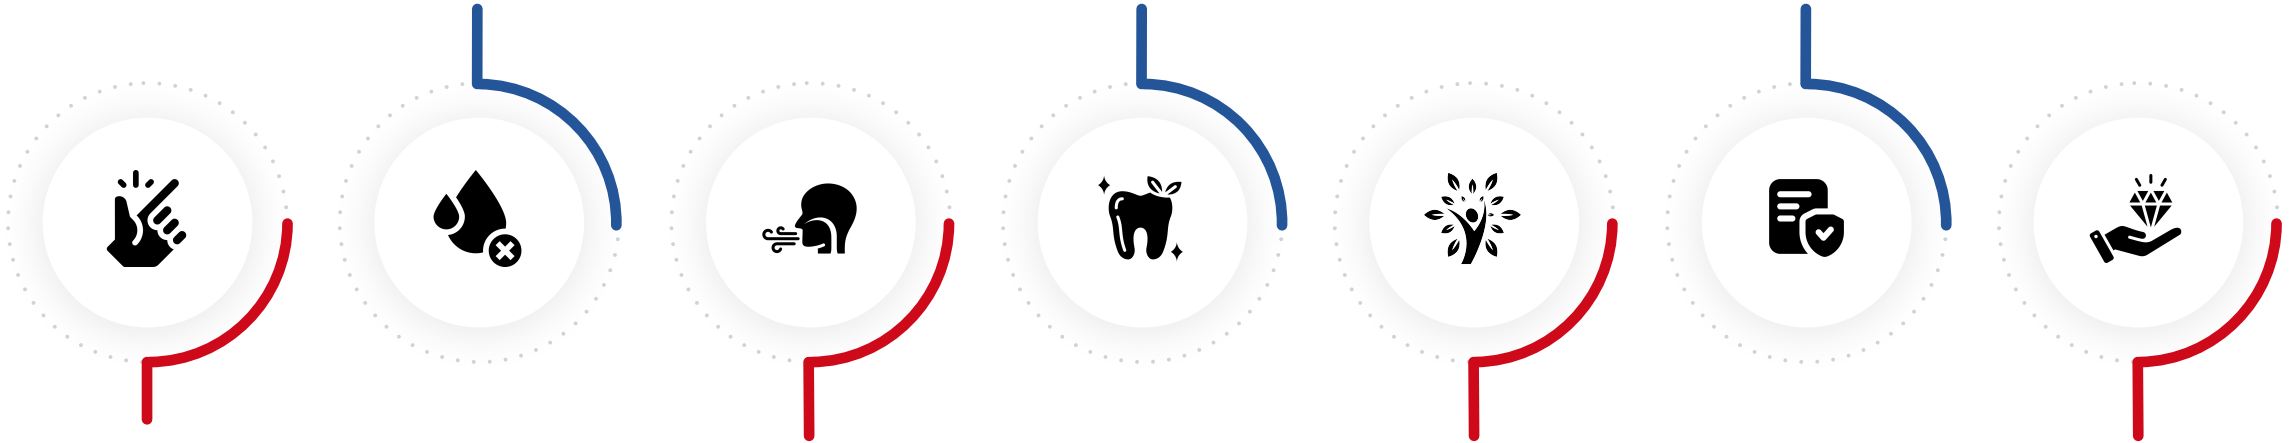

# Why It Works For Everyone

## Smart, Scalable Oral Hygiene – Wherever It's Needed

Empowers patients,  
reduces staff burden

No prep, no rinse, no  
struggle – just results

Improves outcomes by  
supporting daily oral hygiene

Works for stroke, trauma,  
surgical, or rehab patients

Scales from bedside to  
full-facility programs

Encourages better oral care habits  
without interrupting the day

# Contact & Next Steps
