Meet DentiMints™

Oral Care That Travels With You

A chewable dental mint delivering full-mouth hygiene in 30 seconds

TSA-friendly and perfect for wellness, personal care, or impulse aisles

Designed for terminal use, layovers, boarding zones, or post-arrival refresh

No fluoride, no SLS, no dyes, no aspartame - clean-label and functional

Ideal for travelers who forgot to pack a toothbrush - or just need a quick fix

The Challenge

Oral Hygiene Gets Skipped – Especially During Travel Days

People eat, drink, nap, and rush - without brushing for hours

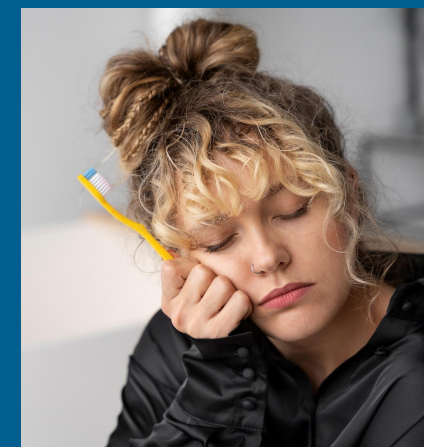

Airport restrooms are busy, inconvenient, or avoided

It's not neglect - it's the lack of practical, portable options

Over 20% of travelers forget basic oral care products when packing

Most turn to gum or mints - but those don't clean the mouth

Airport Environments - The Oral Hygiene Gap

Travelers Want Clean - But Only Find Candy and Gum

DentiMints™ offers a full-mouth cleaning in 30 seconds, with no tools or rinse required.

Snacks, coffee, and dry air cause odor and buildup

There are no real oral hygiene options at checkout or in vending

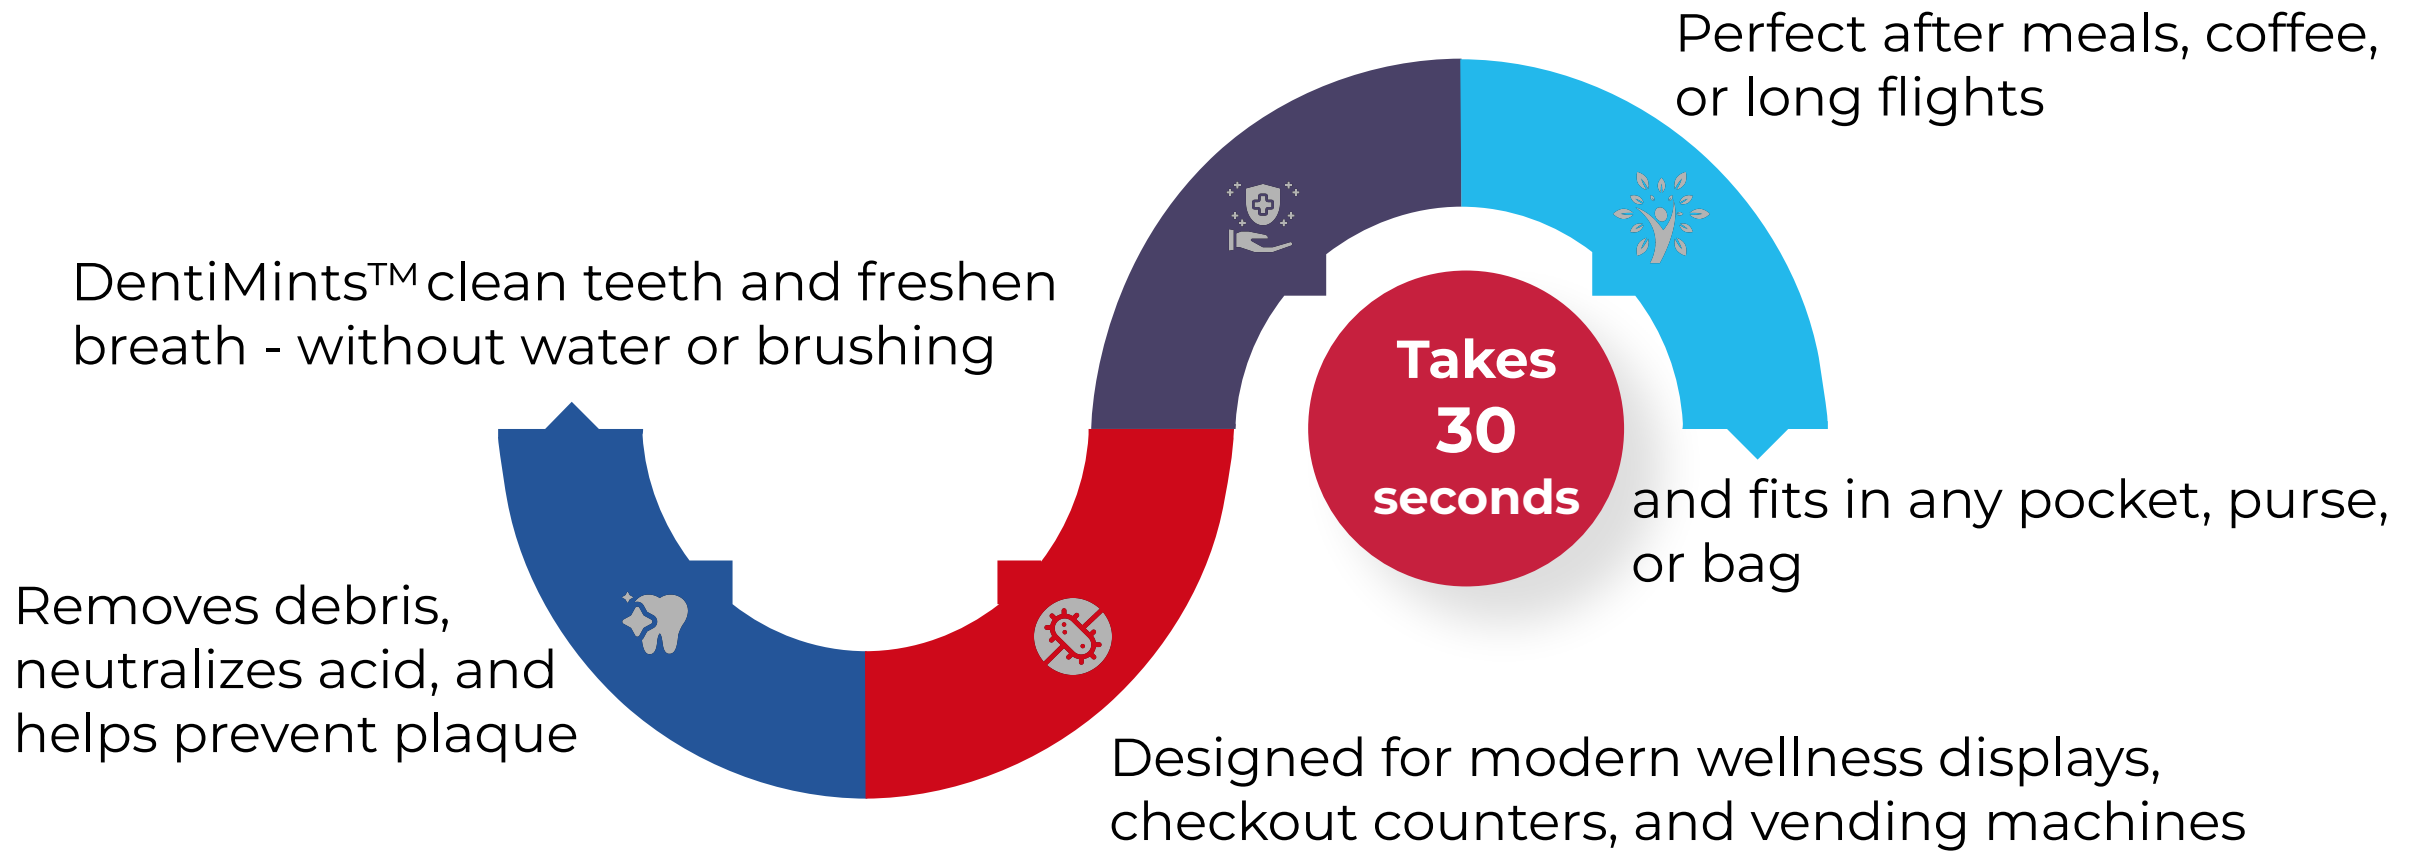

Gum and mints mask odor - but don't clean the mouth

Travelers need functional freshness they can carry and use anywhere

The Solution

Real Oral Care - Anytime, Anywhere

How It Works

Chew. Swish. Clean. Fresh.

No toothbrush? No sink? No problem!

Chew the tablet to
activate ingredients

Swish as it
dissolves – no
water required

Cleans teeth and
gums while
supporting enamel
and pH balance

Total mouth refresh -
anytime, anywhere
