The Challenge

22% of Guests Forget Their Toothbrush - Oral Care Is Often Overlooked

Oral care products are among the top forgotten items when traveling

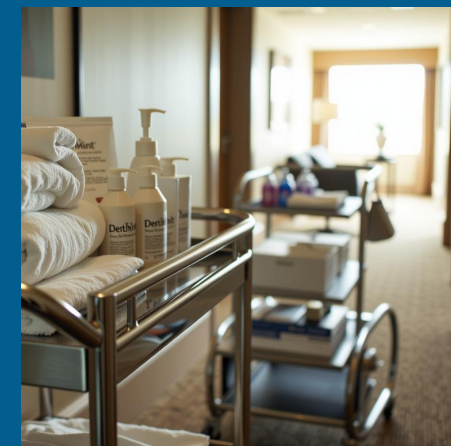

Hotel front desks frequently handle toothbrush & toothpaste requests

Guests may delay hygiene until they leave the room or find a store

Standard travel kits are outdated, messy, or underwhelming

Guests expect smarter, wellness-aligned options

The Hospitality Hygiene Challenge

Guests Need Flexible, Hygienic Oral Care Solutions

DentiMints™ offers a full-mouth cleaning in 30 seconds, with no tools or rinse required.

Brushing isn't always convenient in luxury or spa settings

Toothpaste tubes aren't easily portable, single-use brushes wasteful

In-room options are limited and often low-quality

Guests want clean, natural amenities that reflect your brand's values

The Solution

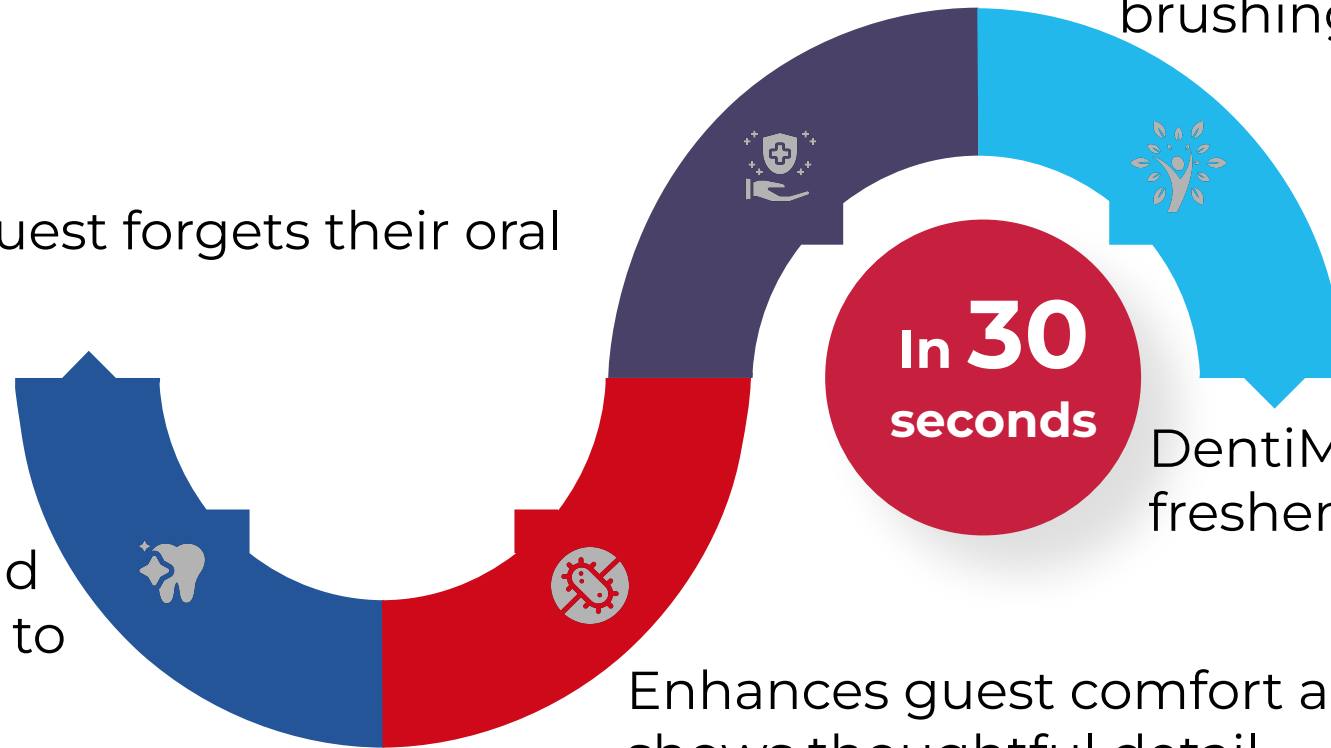

Fresh Breath. Clean Mouth. No Brush Required.

No water, no rinsing, no brushing - just chew and swish

Ideal when a guest forgets their oral care essentials

Supports hygiene and confidence from spa to suite

DentiMints™ cleans and freshens the entire mouth

Enhances guest comfort and shows thoughtful detail

How It Works

Chew. Swish. Clean. Fresh.

No toothbrush? No toothpaste? No problem!

Guests Chew the tablet to activate ingredients

Swish gently as it dissolves – no water required

Cleans teeth and gums while supporting enamel and pH balance

Dual-use: also works with a toothbrush if desired
