Meet DentiMints™

An Oral Hygiene Product Designed for Modern Micro-Markets and Breakroom Vending

Chewable dental mint that delivers real oral hygiene in 30 seconds

Sugar-free. No fluoride. No SLS. No aspartame. No dyes

Ideal for vending coils and premium micro-market shelving

Made for use when full oral hygiene routines aren't practical - no brushing or water required

Built for busy workdays - great for employees between shifts, after meals, or before meetings

The Challenge

Oral Care Gets Overlooked - Even Though it Shouldn't

64% of employees never brush their teeth during the workday - even after coffee, snacks, or meetings

Not because they can't, but because brushing is inconvenient, awkward, or unrealistic

Meals, snacks, and beverages increase the need for mid-day hygiene

Most vending and micro-markets offer no oral care options

It's an important daily gap that DentiMints™ is built to solve and shouldn't be ignored

Breakroom Gaps in Oral Hygiene Care

Even the Best Micro-Markets & Vending Outlets Overlook Oral Hygiene

Many offer breakfast, lunch, and healthy snacks, but hygiene is rarely included

Today's breakroom setups vary from basic snack machines to fully stocked smart kiosks

Breath mints and gum don't clean teeth or reduce harmful bacteria

Employees want clean-mouth confidence throughout the day

DentiMints™ brings hygiene into the breakroom mix

The Solution

A fresh, confident solution people will actually use. No water. No brush. No Hassle. No mess.
