

DentiMints®

CHEWABLE DENTAL MINTS

Oral Care in 30 Seconds. Anytime.
Anywhere. No Toothbrush.
No Water. No Excuses.

Why DentiMints™?

On-the-go oral care that fits into real life. Use after meals, coffee, travel, work, and anywhere brushing is not practical. Designed for convenience, speed, and everyday use without the need for a sink, water, or a toothbrush.

THE 30 SECOND FIX

Chew. Swish. Clean. Fresh!

POWERED BY TRUSTED INGREDIENTS

All-natural ingredients selected to support enamel, balance oral pH, and maintain a clean and fresh mouth.

Xylitol: Helps inhibit harmful bacteria, reduce acid production, and stimulate saliva flow to support enamel protection and a healthier oral environment.	ExoCyan Cran: Patented cranberry extract with antioxidant properties that help prevent plaque adhesion, reduce harmful bacteria, and support gum health.	Sodium Bicarbonate: Helps neutralize acids, freshen the mouth, and lift surface stains for a cleaner, brighter smile over time.	Calcium Lactate: Provides calcium to support enamel strength and natural remineralization of teeth.	Silica: Provides a gentle brushing effect to help clean, polish, and smooth teeth when traditional brushing is not available.
